Enhancing Water Management and Governance in Moldova

Some projects have occurred within this agreement

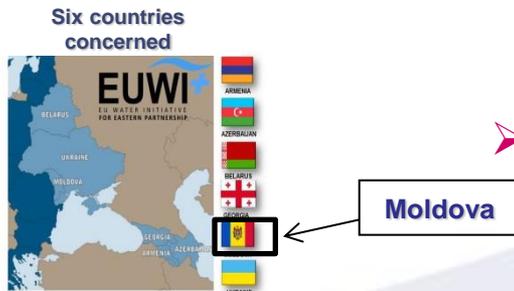

- 1. Solidarity Water Europe project on governance (mission in the Nirnova basin with the Ministry of Infrastructure and Construction)

- 2. EURO INBO in Lourdes (France) in 2016

- 3. EUWI East plus (European project in progress)

Enhancing Water Management and Governance in Moldova

1. Solidarity Water Europe project : good governance in the Nirnova river

- Respond to the problems of access to water and sanitation in the Nirnova river
- Ensure a good knowledge of the territories and the institutional frame
- Implement an inter municipal body to ensure sustainability of water and sanitation works
- Assessment of water and sanitation works on the field
- Implement a water network of stakeholders to facilitate exchange of database and works
- Develop local cooperation with a network of municipalities

Enhancing Water Management and Governance in Moldova

2.EURO INBO in Lourdes (France)

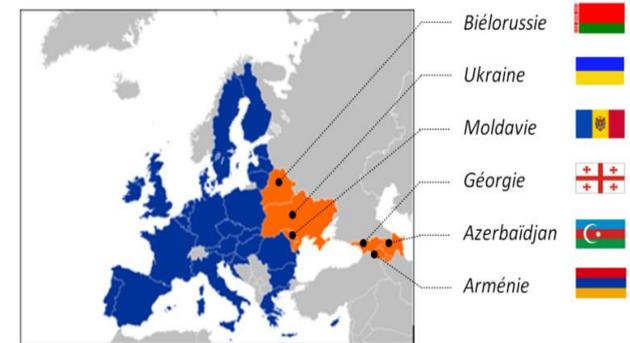

- Share of information and needs
- Organization of a cooperation agreement signed in March 2017
- List of topics to be implemented in the agreement

Enhancing Water Management and Governance in Moldova

3. EUWI East plus (European project supported by Artois Picardie Water Agency and IOWater)

- Capacity building at basin level
- Improve the legal frame as for the WFD
- Develop monitoring capacity for water states
- Bring technical help for the construction of a Management Plan at a basin level
- Develop and strengthen national water database according to the shared Environmental Information System
- Organize stakeholders' participation
