

## **EDgE Project Workshop**

*(“End to end Demonstrator for improved decision making in the water sector in Europe”)*

Side-event at the EURO-INBO Conference

Lourdes, France, 20<sup>th</sup> October 2016

Dear colleagues,

In the context of the development of the EDgE Project and as a key partner in its successful implementation, the Mediterranean Network of Basin Organisations (MENBO) has the pleasure of inviting you to the side-event to be held on the occasion of the EURO-INBO Conference in Lourdes, France. The workshop will take place at **Hotel Solitude, on 20<sup>th</sup> October from 13:00 to 14:00.**

The aim of the session is to present information on the Project, its objectives, its partners and its state of play but above all, to offer the participants the opportunity to provide feedback on the hydro-climatic services developed by the Consortium so far.

The main objective of the EDgE Project is to create and make available relevant EU wide hydro-climatic information to be used by the water sector with the aim of improving the decision making procedures related to the European strategies of mitigation and adaptation to climate change.

EDgE is framed within the Copernicus Programme of the European Commission, more specifically in its Climate Change Service. It is lead by the UK Centre for Ecology and Hydrology (CEH), and MENBO is a member of the partners Consortium. The central task entrusted to MENBO within the project, was to set up a group of representative stakeholders of the water sector (users) in order to discuss with them the value of the climate information available and to find out eventual gaps and needs of users.

Please let us know at your earliest convenience if you are interested in attending this workshop. Confirmations must be sent directly to [remoc@remoc.org](mailto:remoc@remoc.org) **by Monday 10<sup>th</sup> of October 2016.** A detailed agenda and a set of working material will be forwarded to the participants before the meeting.

We look forward to seeing you in Lourdes!

Sincerely,

MENBO Permanent Technical Secretariat  
Mediterranean Network of Basin Organisations (MENBO)
